

Wellness49 in Business

Take advantage of a beneficial partnership system with Wellness49. Join our team today!

- o Significantly higher incomes
- o Rapid return on investment capital
- o Building new customer base
- o Low maintenance costs
- o Business development and expansion
- o Customer satisfaction and gratitude

CryoMethod The duration of a single Cryobath session ranges from 30 seconds to 3 minutes. Thanks to the nitrogen mist, skin temperature is rapidly lowered. Testimonies report healing and other therapeutic results. European scientific studies demonstrate brief thermal controlled shocks activate the release of adrenaline into the bloodstream which increases heart rate, muscle strength and blood pressure. This adrenaline rush boosts the immune system, resulting in day-lasting effects. These studies also indicate Cryobath sessions release endorphins- natural painkillers, energizers, and stress fighters.

After stepping out of Cryobath, the body begins to warm up by speeding up its metabolism, this results in calories being burned. It takes approx. 500 calories to return to your normal body temperature.

Testimonies report Cryobath has been successful with relief in the following areas:

Sport & Training	Health & Well-being	Beauty & Look
		
Muscle soreness	Immunity	Weight reduction – weight loss
Speeding up the rehabilitation process	Cell regeneration	Endocrine system
Quick recovery after strenuous exercise	Release of endorphins	Increased circulation
Pain reduction	Chronic diseases	Cellulite
Inflammation reduction	Mood disorders	Brighter and healthier skin
Increased energy	Anxiety and depression	Skin firming and tightening
Metabolism recovery	Improved sexual functions	Anti-wrinkle effect
Quick recovery after a serious injury	Insomnia	More energy and increased libido
Toxin disposal	Migraine	Collagen
